

The same network, one era at a time

Protectorate

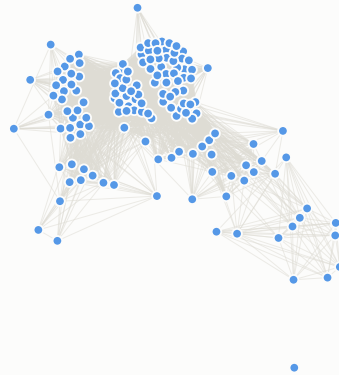

61 ministers · 372 ties

Transition

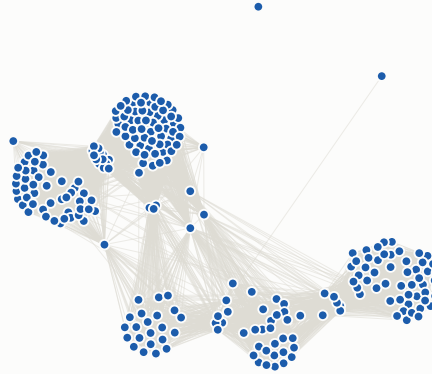

137 ministers · 2,548 ties

Bourguiba

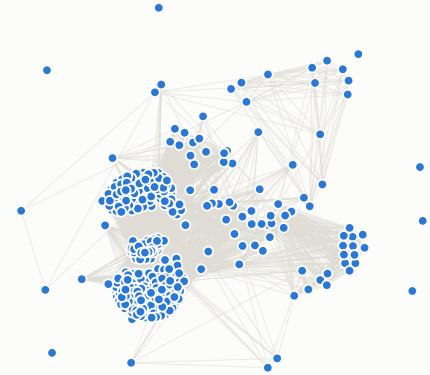

147 ministers · 4,165 ties

2nd Republic

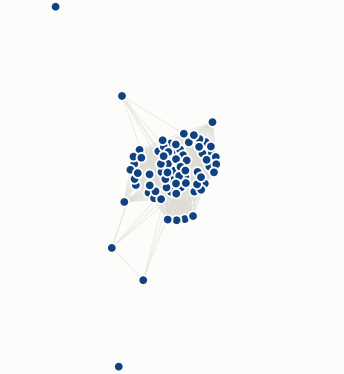

246 ministers · 8,001 ties

Ben Ali

351 ministers · 22,935 ties

Post-2021

74 ministers · 1,899 ties

Identical layout rules in every panel, so the shapes are comparable. Each blob is a cabinet; strands between blobs are ministers who stayed on. The protectorate is barely joined at 12 colleagues per minister, Ben Ali densest at 131, and the post-2011 governments sit between while breaking into more separate clusters. Panel size is that era's own subgraph, not a sample.
