

Co-membership by region of birth, against chance

Centre East	1.02	1.07	0.98	0.96	1.02	0.95	0.99
Centre West	1.07	0.88	0.97	0.94	1.01	0.99	1.06
Greater Tunis	0.98	0.97	1.03	0.96	1.01	1.02	1.00
Northeast	0.96	0.94	0.96	1.04	1.12	1.11	1.02
Northwest	1.02	1.01	1.01	1.12	0.90	0.95	0.86
Southeast	0.95	0.99	1.02	1.11	0.95	0.98	1.10
Southwest	0.99	1.06	1.00	1.02	0.86	1.10	0.92
	Centre East	Centre West	Greater Tunis	Northeast	Northwest	Southeast	Southwest

Observed ties $\div$ ties expected under proportional mixing. 1.00 is chance; blue is above, red below. The diagonal sits at 0.88–1.04 — ministers from the same region are no likelier to serve together than chance, which is what the near-zero assortativity says numerically.
