

The co-membership network, after the disparity filter

Entered government

- Pre-1957
- Bourguiba 1957-87
- Ben Ali 1987-2011
- 2011-2021
- Post-2021

403 ministers and 2,733 ties survive the filter, from 832 and 38,287. Node size is degree within the backbone.

Each tight knot is a cabinet, and a knot is almost always one colour, because a tie needs shared time in office. The strands between knots are the ministers who stayed on — the carry-over of figs. 22 and 39.
